

Sample Round Robin

Candidate Instructions

Candidate Instructions:

You will participate in two interviews in which you will be positioned with three of the nominating committee members and one outside stakeholder. You will only interact with the stakeholder. This stakeholder will ask you several questions, probing a “real life” conversation with you about one of the three areas of knowledge (agriculture, FFA, or education). The stakeholder will use an interview guide with several questions to help prompt major issues that should be addressed in the 5 minute conversation, however, feel free to interject questions back as your goal is to demonstrate your skills in holding a conversation.

Topic: FFA

Scenario:

You have just arrived to a chapter visit where there is a new advisor. You have scheduled some time before your classroom presentation to meet with her to discuss ideas for increased FFA involvement within the chapter. The advisor did not go through a traditional teacher education program and is unfamiliar with how FFA fits into agricultural education. The advisor is interested in talking to you about FFA activities relevant to her program and how to make FFA integral to her ag program.
